I'm a junior web developer, with a degree in architecture, from Argentina, my native country. I moved to the USA last February, and I am currently studying JavaScript and CSS/SASS at Epicodus in Portland, OR.

Throughout my schooling and employment, I've always enjoyed the creative and technical aspects, as well as the challenge of finding the balance combining them. That realization led me to explore web development, and I am excited to dive deeper into front-end!

Skills

Design (Composition, wireframing, identity)
SASS/ CSS
HTML
JavaScript.
Conceptualization, organization, synthesis.

Experience

FOVISEE / Technical Project Manager

JULY 2014 - NOVEMBER 2015, BUENOS AIRES, Argentina

I was in charge on defining the main materials, and interventions for a main project called "A hundred houses in a hundred days". Where the goal was to help 100 families in need to get their home a better space to live in. We worked in a team of social workers, sociologist and architects/students, our main partner were Community Housing Partners Energy Solutions (CHP-ES) and Weatherizers Without Borders (WWB).

Cuatro Lineas / Design - Sales - Computing.

AUGUST 2011 - SEPTEMBER 2012, BUENOS AIRES, Argentina

I was in charge of the entire process from introducing potential customers to our brand, design new projects, till the follow up afterwards. I also contacted the customers and the providers, to generate the best possible product.

Education

Epicodus / Web Developer

April 2017 - September 2017, PORTLAND

Code School, I choose to focus on Front-End development and Design.

Main skills gained:

- Ability to collaborate, work in a group or pair coding.
- Incorporate a big amount of information in a short period of time.
- Ability to communicate in English using technical language, explaining concepts, exchanging ideas.

Buenos Aires University / Architect

MARCH 2006 - MARCH 2012, BUENOS AIRES, , Argentina

Architecture school. I learned the history, the technical, organizational and, creative components of the profession.

Main Skills gained:

- Ability to communicate abstracts ideas.
- Problem solving.
- Collaboration skills, hard work, long term commitment, working with deadlines.
- Understanding the world from a designer perspective.
